Top Tips:

The secret to success? Practise little and often! Can you learn these on your way to school? On a car journey? Or even at the breakfast table? You don't need to learn them all at once: start with those you are more confident with before tackling the rest. Why not practise whilst keeping active? You could throw and catch or kick a ball whilst learning them!

Things to Try!

- ✓ Counting objects around the home, making piles of 0, 1, 2, 3, 4 and 5, and then counting them in order to 5 and back..... use sweets, lego, fruit, stones, leaves etc
- ✓ Looking for numbers up to 5 around the home and when you are out and about...can they count on or back from that number?
- ✓ Singing number songs where the numbers are going backwards, e.g Five little speckled frogs, five little monkeys jumping on the bed etc.
